Henry Pundt brought us in four more new subscribers last week. HENRY is one of our liveliest and best Democrats and makes an interest in his county paper. He ticks off Harrison up by the tail when necessary.

Miss Butler, of Pittsburgh, Pa., had looked for a man under her bed every night for many years, and at last she found not one there, but four. They were black men, and left her bound and gagged when they went off with the family plate and jewelry.

The business house has hit the printer an unlucky stroke. It has advanced the price of paper four or five cents a pound, and other supplies and expenses in proportion, without affording him any chance for a corresponding advance of his rates and charges.

The entertainment of "Ten Nights in a Bar Room," given at the Opera House, in Eaton, on Friday evening last, by the West Alexandria amateur troupe, bro't a crowded house and was a financial success, the net being over \$400. We would advise our readers not to send any money, produce, or other valuables to any person or firm soliciting through the newspapers, without first ascertaining that the parties are reliable. There are so many bails held out to induce persons to forward money, and get something desirable in return, that too many cases cannot be cited. Many of them are clean swindlers.

Every farmer should devote a few hours this winter in making a careful statement of the acreage by his place, improved and unimproved, and the amount of crops he raised last year. The census taker will be around in the spring, and it is hoped that every Freble county farmer will do his part toward making a full and complete statement of his crops, and he will want just these facts.

Young man, old man, middle-aged man, do you know what an easy thing it is to tarnish the reputation of a woman? A thoughtless remark, a trifling innuendo, an unguarded speech concerning the lady who passes you on the sidewalk, or even sometimes a mere look of suspicion, may be the basis for whole chapters of scandal upon a character entirely spotless. Be careful what you say, and do, and guard your actions, and your words, and, lest some woman, blameless as your wife or sister, may suffer thereby.

The Council had a quorum last Monday night, but no business of importance was transacted. Bids for taking care of the Engine and Hall were received to the number of five, but none accepted. The lowest was \$8 per week and the highest \$600 per year. It seems to us that \$6 per week would be a very fair compensation for that job. Nothing was said about the money illegally drawn from the Corporation Treasury by the cistern "booses." That matter might as well be attended to early, for delay will not help it.

It requires a wonderful amount of devices and means now-a-days to induce people to patronize the Temples dedicated to the Lord. The simple love of Christ and fear of the Devil, don't make 'em shell out for it. Why is it thusly? In our Sabbath school every good day, church festivals, socials, oyster suppers, loan exhibitions, donations, music and milk and neck-tie parties, post-office deceptions, grab bags, and all such operations in the interest of the Lord, would have been hooted from the holy sanctuaries as devices from emissaries of the Devil. Are we becoming enlightened as to the means required to gain favor with the Lord, or why all these new-fangled notions to keep our churches in running order?

Very frequently men sign petitions in favor of building piers, locating ditches, roads, etc., and then again sign another petition remonstrating against the very same thing they petitioned for. It may be of interest to this class of individuals to be informed that section 4857 of the revised statutes of 1880, MAKES A PETITIONER LIABLE FOR COSTS, IF HE AFTERWARDS SIGNS A REMONSTRANCE AGAINST HIS PETITION IS DEFEATED.

There are some individuals who will threaten to sign a petition, and then, if the accommodating individuals to be a little careful when they petition for and remonstrate against public improvements.

We have, derived from General Beardsford, of New Orleans, the advanced sheets of a work entitled "Advance and Retreat. Personal Experiences in the United States and Confederate States Armies," by the late Gen. J. B. Hood. The book is printed from manuscripts found among the private papers of the deceased. The entire proceeds of the book are to be devoted to the care, nurture, education and support of the ten orphans of the dead soldier; but even if this were not the object of the publication, such a book would be sure to prove a success, financially. The Hood Orphans Memorial Fund is the title of the special fund for the interest of which the volume will be issued.

Any subscriber desiring to discontinue taking a newspaper, should always inform the publisher, by letter or postal card, of his wish, and it will be granted, provided, always, that he PAYS LIKE AN HONORABLE MAN, THE AMOUNT DUE TO SAID PUBLISHER, for value received. But don't like a sneaking crowd, seek to take advantage of the printer, by ordering the postmaster to return the paper to the publisher marked "refused," seeking in that way to evade payment. There are some mean, conscienceless men, but happily, there are but few of this class, who subscribe for and take a newspaper, for two or three years, and then refuse to pay a cent for it. Such a course would not be honest dues, by ordering the postmaster to give official notice to discontinue the paper. When you want to discontinue taking a paper, pay what you owe.

Earth's troubles past, her cares and duties done, God's peace rests upon the grave of HELEN M. CARE, who was widely known in this community as a lady of kind and gentle disposition. The "ornament of a meek and quiet spirit" was a distinctive element in her character, and although a long sufferer from the slow and insidious disease of Consumption, a gentle spirit full of love and kindness was constantly manifested in her daily life. Her husband, who too often embittered the life of those thus afflicted, seemed to have no power to mar the serenity of hers, but served only to bring out in greater clearness the true nobleness of her nature and her perfect trust in Christ. The two bereaved sisters, with whom she was so long and closely connected in life, will sadly miss her, but kind words and the sympathy of many warm friends will in some measure assuage their grief and pour balm into their sorrowing hearts.

**"The Great Boom."**

Eighteen hundred and seventy-nine will long be remembered as the time when all kinds of business and financial prosperity seemed to spring into new life. Merchants are finding plenty of ready customers for their wares, mechanics meet with ready employment at fair wages, and the thrush are receiving advanced prices for their products, and it is acknowledged by all that in no part of our country are the influences of prosperity and comfort so marked as along the entire line of the "Old Reliable" Hannibal & St. Joseph Railroad. And to attain these results the management of the Hannibal & St. Joseph Railroad have given their careful thought and attention and the rapid growth of business, and increasing wealth of the community along the whole line are evidences that their efforts have fully appreciated. We are, as usual, running in connection with the Chicago, Burlington & Quincy Railroad through Day Coaches, Reclining Chairs (free), and Pullman Sleeping Cars from Chicago via Quincy to Missouri river points. Also through Day Coaches from Toledo and Indianapolis, with Pullman sleeping Cars from Toledo via Danville, Springfield and Quincy to Kansas City, Atchison and St. Joseph without charge. Families traveling with children will find it greatly to their comfort to take the "Old Reliable" H. & S. J. R. as no change of cars is made.
